

Powerful, unlimited web content management

Savvy CM™ Unlimited is the way corporations, universities, institutions, and organizations are making the changes they need to do business on the web. Savvy CM™ Unlimited is an easy-to-use, easy-to-implement enterprise content management solution you'll never outgrow.

Savvy CM™ Unlimited delivers a powerful, browser-based editor, with unlimited URL's, unlimited users, and unencrypted code:

Unencrypted code means the Savvy CM Unlimited™ platform allows your developers to easily add custom code and just about any additional custom feature that suits your needs. Why pay thousands more for features you and your staff don't need and may never use. Why settle for an out-of-the-box solution when you can make your own custom code or add top-of-the-line solutions from just about any other software provider. Need a custom solution and don't have the time to make changes? Savvy Software developers are available for you. Savvy CM Unlimited™ provides you one of the most user-friendly editors of any content management system on the market. Savvy CM Unlimited™ allows anyone to create new web based content without knowing anything about sophisticated web applications or computer code. It's just like using a typical word processing program. Savvy CM Unlimited™ is easily installed into your web site and runs on your browser, like Explorer. With it's built-in administration and security, your designated users can access it from any location, worldwide.

Savvy CM Unlimited was created for large organizations that need enterprise content management with unlimited room to grow.

Savvy CM Unlimited Benefits:

- Unencrypted Code

- Insert Tables and Images
- Real Page Names

Features Include:

Unencrypted Code

Savvy CM™ Unlimited allows you to make any change or addition you require. As your content management needs grow, Savvy CM™ Unlimited grows with you. You're not stuck with out-of-the-box solutions that can't change when you need them to.

Unlimited URL's

With Savvy CM™ Unlimited you'll have it wherever you need content management. There's no need to purchase an additional license for new division, corporate or intranet sites. You can have as many URL's on as many servers as you need. Savvy CM™ Unlimited will save you thousands of dollars in additional licensing fees. It's the first and last content management solution you'll need.

Editor Support for Mac OS X, Windows and Linux

Savvy CM™ Unlimited supports any Mozilla 1.4 compatible browser. No other similarly based web CMS can offer full MAC OSX and Windows support. Savvy CM™ Unlimited is Netscape and IE friendly.
